Attachments: CA Biogas Data 022019.xls

Hi Charlotte – My most recent data is from about 2015 and is attached. I hope this helps. Thanks – Greg

PS – Did you see my request for you to speak at our virtual CBA symposium in November?

Stay Positive – Test Negative!

Subject: RE: CA WWTF flow data

Hi Charlotte,

That data should be in the SWRCB system. Check with Brianna St. Pierre. Prior to CDX, I used to keep records of dry weather flow for majors in our biosolids database, but our CDX system doesn't ask for that as part of the biosolids report. Our Water Division data system for WWTFs only tracks those with NPDES permits.

Heard that SWRCB and other state agencies were going to be working from home through December. We haven't heard anything yet regarding EPA Region 9, but I wouldn't be surprised if we're also WAH through December.

Lauren

Hi Lauren and Greg,

Do either of you have the latest CA WWTF flow data (design, wet weather, dry weather flows)?

Please share if you do.

Thanks,
Charlotte
